

MARINAS COMMITTEE

TEAM CHARTER

Purpose

The purpose of the Marinas Committee is to improve the overall Marina experience at The Landings for boaters and non-boaters.

Background

Currently, they are viewed by the community and our boaters, as one of our best assets. For example, Delegal Marina is the most frequented venue for visitors to the Landings. The mission of the Marinas Committee is to preserve and enhance that perception of both Delegal and Landings Harbor marinas.

Scope

The scope of the Marinas Committee is to promote our marinas throughout the community and the broader Savannah area. This is accomplished through planning, organizing and promoting boating safety and education, social and water related programs. These include: power boating, sailing, kayaking and fishing. It also represents the boating community with enhancing the Marinas experience in the Landings.

Team Composition

The Marinas Committee will be comprised of individuals with experience and interest in the above mentioned program areas and who have a sense of the marinas as a valuable asset in the larger context of the community. It should include the Landings Sailing Club Fleet Captain, and may include representatives from other boating and water activity related groups. Other ad hoc members might be used for special activities. In addition, a Director shall be assigned from the TLA Board as a liaison to the Committee. The Marinas Director will be assigned to work with the Committee as staff liaison.

Team Empowerment

The Marinas Committee is a standing committee that makes recommendations to the General Manager and staff.

Team Operations

The Marinas Committee will follow *Robert's Rule of Order* to include agendas, quorum, voting and meeting minutes.

Team Performance Assessment

The committee will be proven to be successful when achieving the following:

- The Board of Directors counts on and supports the opinions/recommendations of the committee.
- Positive community response, increased activity and increased revenue from programs and events held to promote our marinas and waterfront.
- Successful implementation of specific Board goals from the Strategic Plan and overall financial performance of the programs and events.
