

# SECURITY COMMITTEE

## TEAM CHARTER

### **Purpose**

The purpose of the Security Committee is to promote an environment of safety and security at The Landings and across Skidaway Island.

### **Background**

The Security Committee has historically been a small committee comprised of key volunteers and outside agencies. As we continue to focus on being the premier gated community in the south east, creating an environment focused on security will be key.

### **Scope**

The mission of the Security Committee is to focus on enhancing the level of security at The Landings. This will be accomplished through projects such as education of residents, community outreach, crime prevention activities, and through cooperative working relationships with other Skidaway Island stakeholder entities.

### **Team Composition**

The Security Committee will be comprised of individuals with background in public safety and communications/PR and with a background in volunteering for Security Operations. Ad hoc members might be used for special activities. In addition, a Director shall be assigned from the TLA Board as a liaison to the Committee. The Security Director will be assigned to work with the Committee as staff liaison. Additionally, there will be representation from other island entities such as Skidaway Island State Park, DNR, USDA, SCMPD, and the Southside Fire Department.

### **Team Empowerment**

The Security Committee is a standing committee that makes recommendations to the General Manager and staff.

### **Team Operations**

The Security Committee will follow *Robert's Rule of Order* to include agendas, quorum, voting and meeting minutes.

## **Team Performance Assessment**

The committee will be proven to be successful when achieving the following:

- The Board of Directors counts on and supports the opinions/recommendations of the committee.
- Programs and activities are undertaken to reduce crime or address crime through proactive measures.
- Positive community response, increased activity and increased from programs and events held
- Successful implementation of Board goals from the Strategic Plan
